THIRD YEAR B.Sc. NURSING (BASIC) DEGREE EXAMINATION, 2002

MEDICAL-SURGICAL NURSING—II

(Revised Scheme)

[1998 Syllabus]

Time : Three Hours Maximum : 80 Marks

Your answers shall be specific to the question asked.
Draw neat and labelled diagrams wherever necessary.

I. Long Essays. Answer any *two* questions :

1 Mr. Salim, a 54 years old paper mill owner is admitted with Acute Myocardial Infarction (AMI).

(a) List the risk factors of AMI.

(b) Analyse the clinical manifestations in terms of pathophysiological changes in heart.

(c) Explain the nursing interventions for Mr. Salim on the basis of *two* prioritised nursing diagnoses.

(1 + 5 + 4 = 10 marks)

2 Mr. Mohan, 25, has developed increased intracranial pressure, as a result of head injury.

(a) Explain the pathophysiological basis of clinical manifestations of increased intracranial pressure.

(b) Describe the therapeutic observations to be made for Mr. Mohan to evaluate his prognosis.

(5 + 5 = 10 marks)

3 Mr. Som, 24, is admitted with the complaints of persistent foul smelling purulent discharge from right ear and otalgia. He is diagnosed to have chronic suppurative Otitis Media (OSOM).

(a) Explain the pathophysiological changes in OSOM.

(b) Describe the nursing management of Mr. Som, on *two* prioritised nursing diagnoses.

(4 + 6 = 10 marks)

[2 × 10 = 20 marks]

II. Short Essays. Answer any *eight* questions :

4 Types of cataract.

5 Medical management of corneal ulcer.

6 Clinical features of quinsy.

Turn over

7 Pathophysiology of CCF (Congestive Cardiac Failure).

8 Medical management of pulmonary TB.

9 Rehabilitation of patient with Parkinson's disease.

10 Communication problem in hemiplegia.

11 Normal ECG.

12 Types of seizure disorder.

13 Pathophysiology of multiple sclerosis.

(8 × 5 = 40 marks)

III. Short Answers :

14 Causes of Keratitis.

15 Problems of vision due to hypertension.

16 What is trabeculectomy ?

17 Drugs used for cardiac arrest.

18 Risk factors of rheumatic heart disease.

19 Consequences of hypoxia.

20 Complications of lumbar puncture.

21 Level of spinal injury causing quadriplegia.

22 Drugs used to relieve increased intra-cranial pressure.

23 List the causes of blindness.

(10 × 2 = 20 marks)

57

SC–1995

THIRD YEAR B.Sc. NURSING (BASIC) DEGREE EXAMINATION, 2002

CHILD HEALTH NURSING

(Revised Scheme)

Time : Three Hours Maximum : 80 Marks

Your answers shall be specific to the question asked.
Draw neat and labelled diagrams wherever necessary.

I. Long Essays. Answer any *two* questions :

1 Discuss the Nursing care of 10 year old Ramesh admitted in the Paediatric ward with a diagnosis of Rheumatic fever.

2 Discuss the Nursing care of 2 year old Reena admitted for surgical treatment of TOF (Tetralogy of Fallot).

3 Discuss the Nursing care of 10 days old male New-born baby with Tracheo-oesophageal fistula.

(2 × 10 = 20 marks)

II. Short Essays. Answer any *eight* questions :

4 Cyanotic spell.

5 Characteristics of a Toddler.

6 Child welfare agencies.

7 Care of Delinquent child.

8 Prevention of accidents in Toddlers.

9 Colostomy care.

10 Intramuscular injections in children.

11 Apgar score.

12 Child to child concept.
