# Rajiv Gandhi University of Health Sciences, Karnataka

Final year B.Sc. (Nursing - Basic) Degree Examination – Mar 2013

Time: Three Hours | Max. Marks: 100 Marks

## Optometric Optics

## Q.P. Code : 1631

Your answers should be specific to the questions asked. Draw neat labeled diagrams wherever necessary

LONG ESSAYS (Answer any Four) 4 x 10 = 40 Marks

1. Briefly explain the principles of single layer anti-reflection coating.
2. Briefly explain manufacture of fused bifocal in detail.
3. Explain the properties of crossed cylinders with help of example.
4. Mention the various parts of a frame with the help of a diagram. explain the various types of frames in detail
5. Find the sph-cyl equilent of following cross cylindrical lens +2.0.0 D cyl @ $20^0$ /+4.0 D cyl @ $80^0$

SHORT ESSAYS (Answer any Eight) 8 x 5 = 40 Marks

6. Explain about datum system in briefly.
7. Describe the effects of distortion in high powered plus and minus spectacle lenses.
8. What is called rotation test? Explain briefly.
9. Briefly explain the image jump in bifocal lens.
10. Indication and contraindications of progressive lens
11. Transpose the following into the alternate sphero cylinder form.

    a) +0.50 Dsph/+1.50 D cyl @160 b)-3.25D sph / +1.75 D cyl @ 35
12. Explain advantages of plastic lenses over glass.
13. Calculate the edge substance ‘e’ of a plano concave lens made in crown glass (1.523) of surface power -10.0 D , diameter of lens 44 mm and center thickness 0.6mm
14. Derive the sag formula

SHORT ANSWERS 10 x 2 = 20 Marks

15. What is the substance used in the production of spectacle lenses.
16. What is surface power? Explain briefly.
17. What is abbey number give some example
18. Advantages of aspheric lens
19. What is called transposition? Explain with example.
20. Calculate the prismatic effects produced when a -5.0 D lens is decentred 4mm up wards
21. Define the prism dioptre and state its advantage as a unit of prism measure.
22. Mechanical requirement of bifocal lenses.
23. Explain the term front till bend and length till bend
24. High index lens

*****

Time: Three Hours | Max. Marks: 100 Marks

## Visual Optics

## Q.P. Code : 1632

Your answers should be specific to the questions asked. Draw neat labeled diagrams wherever necessary

LONG ESSAYS (Answer any Four) 4 x 10 = 40 Marks

1. Describe in details static and dynamic retinoscopy with examples
2. Define ametropia, define hypermetropia and write down its classification and treatment.
3. Define astigmatism and explain JCC and Astigmatic fan in details.
4. Write in details about the steps involved in subjective refraction with its importance.
5. Define accommodation and describe the relation between accommodation and convergence

SHORT ESSAYS (Answer any Eight) 8 x 5 = 40 Marks

6. Write a short note on contrast sensitivity
7. Write a note on corneal curvature and thickness
8. Define anisometropia and anisokonia and its treatment
9. Describe steps involved in binocular balancing
10. Write a short note on depth of focus and depth of field
11. Write any 5 points differentiating axial and refractive ametropia
12. Write in short about schematic and reduced eye
13. Describe various methods used to measure convergence
14. Write a short note on transposition with examples

SHORT ANSWERS 10 x 2 = 20 Marks

15. Define near point of accommodation and convergence
16. Define sturms conoid with diagram
17. What are purkinge images
18. Write any two differentiating factors between ocular and spectacle refraction
19. Define amplitude of accommodation
20. Write any two examples in which you will advice cycloplegic refraction
21. Define spectacle magnification and relative spectacle magnification
22. Describe trial case and write down different accessories present in trial case
23. Define puesdomyopia
24. Define visual acuity

*****

Time: Three Hours | Max. Marks: 80 Marks

## MIDWIFERY INCLUDING MATERNITY AND GYNAECOLOGICAL NURSING - II (Old Scheme)

## Q.P. CODE: 1665

Your answers should be specific to the questions asked
Draw neat labeled diagrams wherever necessary

LONG ESSAYS (Answer any Two) — 2 x 10 = 20 Marks

1. a) Define Uterine prolapse
   b) List the degrees of uterine prolapse
   c) Discuss the nursing management of third degree uterine prolpse
2. a) Define Placenta praevia
   b) Mention the types of central placenta praevia
   c) Explain the management of central placenta praevia
3. a) Define polydromnios
   b) List the causes of polyhydromnios
   c) Discuss the intrapartum management of Polydromnios

SHORT ESSAYS (Answer any Eight) — 8 x 5 = 40 Marks

4. Amniotic fluid embolism
5. Gestational diabetes mellitus
6. Physiology of lactation
7. Episiotomy
8. Conginatal malformation of newborn
9. Partograph
10. Occult cord prolapse
11. Tocolytic agents
12. Complications of third stage of labour
13. Lovset's maneuvers

SHORT ANSWERS — 10 x 2 = 20 Marks

14. V V F
15. Homan's sign
16. Unstable lie
17. Exclusive breast feeding
18. Lochia
19. Subinovlution of uterus
20. Amniocentesis
21. Asphyxia neonatorum
22. Rh incompatibility
23. Bandl's ring
