# Rajiv Gandhi University of Health Sciences, Karnataka

M.D. Homoeopathy Degree Examination (Part-I) - 10-Mar-2025

[Time: 3 Hours] [Max. Marks: 100]

## HOMOEOPATHIC PHILOSOPHY AND ORGANON OF MEDICINE
(Revised Scheme 5)
Q.P. CODE: 8004

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

Answer All The Questions 10 X 10 = 100 Marks

1. Describe fundamental principles of homoeopathy.
2. Describe importance of individualization of patient and drug. Mention practical limitations in individualization.
3. Describe Emergence of homoeopathy and its establishment in the field of medicine.
4. Describe medicine of experience.
5. Describe in detail Hahnemann's concept of Vitalism through review of different editions of Organon of medicine.
6. Differentiate $5^{th}$ and $6^{th}$ editions of Organon of medicine.
7. Discuss the evolution of Psora theory.
8. Comment on Psora is the most destructive miasm causing $7^{th}$ / $8^{th}$ of all the chronic diseases.
9. Discuss Holistic sciences on basis of Aristotle and Hegal.
10. Discuss the importance of study of psychology in Homoeopathic practice.

* * * * *

M.D. Homoeopathy Degree Examination (Part-I) - 10-Mar-2025

[Time: 3 Hours] [Max. Marks: 100]

## REPERTORY
(Revised Scheme 5)
Q.P. CODE: 8005

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

Answer All The Questions 10 X 10 = 100 Marks

1. Justify 'Repertory is means to an end of case and not final in itself'.
2. Discuss the evolution of Homoeopathic repertories.
3. Discuss the different methods to screen and select the similimum from repertorial result.
4. Differentiate between totality of symptoms and Repertorial totality with an example.
5. List all the sections of Kent's Repertory. Explain the utility of ''Mind' section in practice.
6. Discuss the role of Kent's repertory in treating One sided disease.
7. Discuss the utility of BTPB in chronic case.
8. Explain the philosophy of complete symptom in the utility of BTPB.
9. Define and explain Pathological generals Explain the utility of pathological generals in practice.
10. Describe the Boger's concept of totality of symptom.

* * * * *

M.D. Homoeopathy Degree Examination (Part-I) - 10-Mar-2025

[Time: 3 Hours] [Max. Marks: 100]

## PRACTICE OF MEDICINE
(Revised Scheme 5)
Q.P. CODE: 8007

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

Answer All The Questions 10 X 10 = 100 Marks

1. Discuss the laboratory diagnosis and Opportunistic infections in AIDS. Explain miasmatic interpretations of HIV disease.

2. Discuss the indications, contraindications and complications of BCG vaccination.

3. List the clinical features of

   i) Pellagra
   ii) Rickets

4. Discuss the causes, clinical features and diagnostic approach along with general management of Hypokalaemia.

5. Discuss the etiopathogenesis, clinical features and investigation findings of Acute Bronchopneumonia. Give indications of a) Antim ars and b) Ipecac in Bronchopneumonia.

6. Discuss the etiopathogenesis, clinical features, diagnosis and scope of Homoeopathy in Wilson's disease.

7. Discuss in detail about occupational hazards of agricultural workers. Elaborate about the preventive measures in the management of such cases.

8. Classify Cardiomyopathy. Discuss the pathogenesis, clinical features and diagnosis of hypertrophic cardiomyopathy.

9. Enumerate the causes of lower gastrointestinal Bleeding. Discuss the indications of a) Hamamelis b) Phosphorus and c) Ruta grav in the same.

10. Discuss the significance of

    i) Interferon
    ii) Innate Immunity

# Rajiv Gandhi University of Health Sciences, Karnataka

M.D. Homoeopathy Degree Examination (Part-I) - 04-Mar-2025

Time: 3 Hours | Max. Marks: 100

## RESEARCH METHODOLOGY AND BIOSTATISTICS
(Revised Scheme 5)
Q.P. CODE: 8001

Your answers should be specific to the questions asked
Draw neat, labeled diagrams wherever necessary

Answer All The Questions | 10 X 10 = 100 Marks

1. Define Bio-statistics. How does bio-statistics help to improve the system of Homeopathy?
2. A researcher wants to apply for research grant from a research grant agency. Describe the salient points that have to be considered by that researcher for preparing the research proposal?
3. The weights of 10 patients in a homeopathic research study are as follows: 82, 93, 91, 84, 54, 76, 74, 62, 84 and 50. Calculate the standard deviation and the standard error of the mean
4. Draw a binomial distribution curve and explain the characteristics of this distribution
5. A researcher wants to perform a clinical trial on children staying in an orphanage. Mention the best practices for conducting this type of trial as per the National Ethical Guidelines for biomedical and health research involving human participants
6. Discuss non-probability sampling in detail. Explain the disadvantages of non-probability sample in medical research.
7. A researcher wants to determine effectiveness of Phytolacca in the treatment of chronic tonsillitis. Calculate the sample size for this study with 95% confidence interval. (Note: prevalence of chronic tonsillitis in the population is 10%) What are the variables that can affect the magnitude the sample size?
8. A researcher wants to determine whether there is any association between the administration of Lycopodium and reduction of serum bilirubin level in alcoholic hepatitis. After 30 days of follow up of 200 patients (100 cases and 100 co trolls), following results were observed

| | Bilirubin levels | |
|---|---|---|
| | REDUCED | No change |
| Cases | 78 | 22 |
| Controls | 45 | 55 |

With the help of Chi-Square test determine whether there is an association between the intervention and the outcome? (The Chi-square value at 5 percent level of significance for one degree of freedom is 3.841)

9. Define Regression? Interpret the Pearson correlation coefficient? Explain the utility of correlation and regression in homeopathic research using an example
10. List one free software that can be used to analyze data for research. List and explain various precautions while writing a research report

* * * * *

# Rajiv Gandhi University of Health Sciences, Karnataka

M.D. Homoeopathy Degree Examination (Part-I) - 21-Jun-2025

[Time: 3 Hours] [Max. Marks: 100]

## RESEARCH METHODOLOGY AND BIOSTATISTICS
(Revised Scheme 5)
Q.P. CODE: 8001

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

Answer All The Questions 10 X 10 = 100 Marks

1. Discuss various scales of measurement with suitable example. Mention the appropriate statistical method applied in each of the scales.
2. Design randomized controlled trial using Rhus Tox, Ledum Pal and Ruta Grav for small joint pains.
3. List the different measures of dispersion and explain any two of them with example.
4. A research study has to be conducted to establish the efficacy of Aethusa cynapium for vomiting among under-five children. What are all the ethical issues needs to be considered for the study? Explain.
5. Answer the following questions with suitable example.
   a. Distinguish between parametric and non parametric test.
   b. Discuss type I and type II errors with example.
6. A cross sectional study to find out prevalence of tuberculosis in a district X has to be established. The previous study has shown that prevalence of tuberculosis is 30% in district Y. Assuming 5% level of significance, 10% precision, with two times design effect. Calculate the net sample size required to enumerate the prevalence of tuberculosis in district X.
7. A homoeopathic researcher selected all his study participants (both cases and controls) for a case-control study from patients visiting hospital. Is this appropriate sample? If Yes/No justify.
8. An experiment was conducted to test the effectiviness of Chelidonium in controlling and reducing the bilirubin level in Jaundice. The researcher administered Chelidonium30 once a day for seven days and followed by sac lac once a day for next 21 days. Control group was administered Nux Vom 30 for 28 days. After 30 days of follow up of 200 patients (100 cases and 100 controls) following results were observed.

| | Bilirubin Levels | |
|---|---|---|
| | Reduced | No Change |
| Cases | 78 | 22 |
| Controls | 45 | 55 |

With the help of Chi-square test, interpret and explain the results in assessing the effectiveness of Chelidonium in controlling/reducing bilirubin levels. (The Chi-square value at 5 percent level of significance for one degree of freedom is 3.841). Also calculate odds ratio.

9. Explain survival analysis in homoeopathic research.
10. Explain the significance of report writing and the steps in writing a research report.

M.D. Homoeopathy Degree Examination (Part-I) - 23-Jun-2025

Time: 3 Hours | Max. Marks: 100

## ADVANCE TEACHING OF FUNDAMENTALS OF HOMOEOPATHY
(Revised Scheme 5)
Q.P. CODE: 8002

Your answers should be specific to the questions asked
Draw neat, labeled diagrams wherever necessary

Answer All The Questions | 10 X 10 = 100 Marks

1. Explain the contributions of Dr. J.T. Kent in developing Homoeopathy as a system
2. Correlate Homoeopathic concepts in the background of evolution of medicine till date
3. Describe the concept of causation of diseases and their utility in understanding homoeopathic materia medica
4. List the methods of construction of Materia Medica. Enumerate the method of drug action.
5. Describe the evolution and development of repertory as a tool for prescription
6. Describe role of repertory in construction of materia medica
7. Discuss the impact of technology on health care
8. Explain the components, methods and barriers of health communication
9. Explain the learning characteristics of Generation ‘Y’
10. Elaborate the domains of Bloom’s taxonomy of educational objectives

* * * * *

M.D. Homoeopathy Degree Examination (Part-I) - 25-Jun-2025

[Time: 3 Hours] | [Max. Marks: 100]

## MATERIA MEDICA
(Revised Scheme 5)
Q.P. CODE: 8003

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

Answer All The Questions | 10 X 10 = 100 Marks

1. List the group characteristics of Ranunculaceae. Outline the mental picture and urinary complaints of Staphysagria.
2. Compare and contrast debility in Muriatic Acid, Flouric acid ,Phosphoric acid and Acetic Acid.
3. List the Clinical indications of Ferum mur, Niccolum, Cadmium and Vanadium
4. Describe the mind, GIT, Skin and female complaints of Sepia.
5. Compare and Contrast haemorrhagic manifestations of Erigeron Canadensis, Millefolium, Arnica and Crocus sativus.
6. Describe the mentals, Gastric, female and clinical utility of Veratrum album.
7. List the group characteristics of Acids. Discuss respiratory, heart, locomotor symptoms of Oxalic acid.
8. Compare and contrast Alumina, Alumen , Selenium and Platina in constipation
9. Explain Lachesis in the background of doctrine of signature.
10. Describe the mind, GIT, Nervous affections and Skin of Mezereum. Compare its skin complaints with Echinacea.

M.D. Homoeopathy Degree Examination (Part-I) - 25-Jun-2025

[Time: 3 Hours] [Max. Marks: 100]

## Homoeopathic Philosophy and Organon of Medicine
(Revised Scheme 5)
Q.P. CODE: 8004

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

Answer All The Questions 10 X 10 = 100 Marks

1. State the law of similar in nature; Differentiate the therapeutic law of homoeopathy with nature's law of cure. Comment on curentur v/s curantur.
2. Define individualization. Elaborate its scope in case analysis, framing totality and remedy selection.
3. Explain the suggestions given by Dr. Hahnemann for the prevention of epidemics in general especially in town.
4. Describe early life of Dr. Hahnemann as a student.
5. Discuss the view of Hahnemann on the review of therapeutics of allopathy and palliative medical practices in the old school of medicine as explained in introduction of organon.
6. Discuss the evolution of doctrine of dosage from their various crude drug doses to 50 milisimal potency.
7. Explain the detail evolution of miasmatic theory in context to maladies of Chronic diseases.
8. Explain the diet and Regimen in management of Psora.
9. Define perception. Describe the principles of perception.
10. Define intelligence quotient. Enumerate the tests for assessing intelligence quotient.

* * * * *

M.D. Homoeopathy Degree Examination (Part-I) - 25-Jun-2025

[Time: 3 Hours] [Max. Marks: 100]

## REPERTORY
(Revised Scheme 5)
Q.P. CODE: 8005

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

Answer All The Questions 10 X 10 = 100 Marks

1. Classify the Repertories. Explain the utility of logico-utilitarian repertories.
2. Explain various methods of Repertorisation.
3. Differentiate between Acute totality and Sector totality with an example.
4. Explain case taking in an Alternating disease? Explain the selection of similimum and follow up of such cases with the help of Repertory
5. Discuss the merits and demerits of Kent's repertory.
6. Describe the history and construction of Kent's repertory.
7. Explain the scope and limitation of Boenninghausen's Therapeutic Pocket Book.
8. In case you decide to prescribe an Intercurrent remedy for a case which has ceased to improve. Explain how to utilize BTPB for managing the case.
9. Outline the working methods of Boger Boenninghausen Characteristics and Repertory.
10. Describe the ground plan of Boger Boenninghausen Characteristics and Repertory. Explain the demerits of BBCR.

[Time: 3 Hours] [Max. Marks: 100]

## Homoeopathic Pharmacy
## (Revised Scheme 5)
## Q.P. CODE: 8006

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

Answer All The Questions 10 X 10 = 100 Marks

1. Justify that Homoeopathic system medicine is holistic.
2. Describe the contributions of Materia Medica pura to Homoeopathic Pharmacy.
3. Explain the process of identification of plants.
4. Define and classify Imponderabilia. Justify Imponderabilia to be an unique source of drug in Homoeopathy.
5. Describe about the different impurities present in sugar of milk and method for its detection.
6. Describe the preparation, properties and uses of distilled water.
7. Describe about publication of authentic materia medica and repertory.
8. Explain the advantages and disadvantages of animal proving.
9. Describe about Post-Hahnemannian concepts of potentization.
10. Describe the preparation of mother solutions and mother substances according to Hahnemannian method.

## PRACTICE OF MEDICINE
(Revised Scheme 5)
Q.P. CODE: 8007

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

Answer All The Questions 10 X 10 = 100 Marks

1. Discuss the etiology, clinical features, complications and management of measles. Indicate Pulsatilla and Hepar sulph.

2. Explain etiopathogenesis, clinical features, investigations and management of bronchial asthma.

3. Write the etiopathogenesis, clinical features and complications of mitral stenosis. Write indications of Adonis vernalis and Lachesis.

4. Explain the classification, etiology, clinical features, investigations, complications and management of inflammatory bowel diseases.

5. Discuss the levels of prevention in communicable diseases.

6. Discuss the risk factors, complications and management of obesity. Indicate Calcarea carb and Graphites.

7. Write the etiology, clinical features, complications and management of hyponatremia. Indicate the role of biochemic medicines.

8. Enumerate the adverse effects of vaccination. Discuss the role of homoeopathy in preventing the same.

9. Write the etiology, clinical features and complications of Vitamin D deficiency. Add a note on homoeopathic management of deficiency diseases.

10. Define Autoimmune disease. Explain its aetiopathogenesis and the role of homoeopathy in its management.

[Time: 3 Hours] [Max. Marks: 100]

## Paediatrics
(Revised Scheme 5)
Q.P. CODE: 8008

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

Answer All The Questions 10 X 10 = 100 Marks

1. Discuss in detail about Failure to Thrive. Mention the approach of Homoeopathy along with nutritional supplementation.

2. Discuss the transition in the youth of 21$^{st}$ century with influence of substance abuse in Adolescence. Write in brief the scope of Homoeopathy.

3. Describe Marfan's syndrome. Explain the indications of two Homoeopathic remedies.

4. Describe approach to a child with bleeding disorder and how will you manage it with Homoeopathy.

5. Describe neonatal sepsis and its Homoeopathic management.

6. Define anaphylaxis. Describe the cause, pathogenesis, clinical features, diagnosis and its management.

7. Describe the etiology, mode of transmission, pathogenesis, clinical manifestations and homoeopathic therapeutics of Croup.

8. Describe a Chamomilla child.

9. Explain the nutritional deficiency syndromes. Discuss the perspective ofa homoeopathic physician should take in handling such cases.

10. Explain Child neglect. Add a note on Munchausen syndrome by proxy.

[Time: 3 Hours] [Max. Marks: 100]

## Psychiatry
(Revised Scheme 5)
Q.P. CODE: 8009

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

Answer All The Questions 10 X 10 = 100 Marks

1. Define psychology. Enumerate the different schools of psychology.
2. Define motivation. Explain the theories of motivation. Explain motivation is measured.
3. Explain the stages of psycho sexual development.
4. Compare and contrast practical problems of Homoeopathy and General medical science
5. Define personality. Describe the theories of personality.
6. Define learning. What are the characteristics of learning? Discuss about the various types of learning.
7. Explain the psycho-bio-social model of disease.
8. Explain Sigmund Freud's psycho-analytical theory.
9. What are neurotransmitters? Discuss any six neurotransmitters with their functions and disorders caused associated with them.
10. Briefly explain parietal lobe with its functions and the disorders associated.

Time: 3 Hours Max. Marks: 100

## RESEARCH METHODOLOGY AND BIOSTATISTICS
(Revised Scheme 5)
Q.P. CODE: 8001

Your answers should be specific to the questions asked
Draw neat, labeled diagrams wherever necessary

Answer All The Questions 10 X 10 = 100 Marks

1. Define Research. Discuss the need and challenges of research in homoeopathic practice
2. Develop an ecological study for assessing the efficacy of Nux Vomica in hyper emesis gravidarum
3. Define Cohort studies. Discuss the types of cohort studies with examples
4. Design a community trial to elicit the efficacy of genus epidemicus for chikungunia
5. Discuss Informed consent. List the components to be included in informed consent
6. Define population and sample for a research. Explain the characteristics of a good sample design
7. Discuss non-probability sampling in detail. Explain the disadvantages of non-probability sample in medical research
8. Discuss Chi-square as a non-parametric test with suitable example
9. Write short note on the following:
   a) Cross tabulation b) Multivariate analysis
10. Discuss various precautions to be observed while interpretation of any results

# Rajiv Gandhi University of Health Sciences, Karnataka

M.D. Homoeopathy Degree Examination (Part-I) - 27-Nov-2025

Time: 3 Hours Max. Marks: 100

## Advance Teaching of Fundamentals of Homoeopathy
(Revised Scheme 5)
Q.P. CODE: 8002

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

Answer All The Questions 10 X 10 = 100 Marks

1. Correlate the concept of health, disease and cure in Homoeopathy and other systems of medicine
2. Explain Boenninghausen's concept of grand generalization with its practicability and examples
3. Demonstrate the knowledge of the relative importance of the individual drug in a family
4. Discuss the limitations of Homoeopathic Materia media and evolve solutions to overcome the limitations
5. Describe the types of health communication
6. Discuss the barriers to modify poor health behaviours with practical examples
7. Explain the different domains of Bloom's Taxonomy of educational objectives
8. Discuss the various barriers of educational communication
9. Explore the Hahnemannian concept of man in health and disease as reflect in various repertoires
10. Justify the importance of diagnosis and symptom analysis for repertorisation

M.D. Homoeopathy Degree Examination (Part-I) – 29 Nov 2025

[Time: 3 Hours] [Max. Marks: 100]

## MATERIA MEDICA
(Revised Scheme 5)
Q.P. CODE: 8003

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

Answer All The Questions 10 X 10 = 100 Marks

1. List the group characteristics of Compositae family. Write in detail about patho-physiology, characteristics mental and physic al symptoms of Arnica.
2. Compare and contrast the clinical application of Pulm met Cup.Ars and Stanum met
3. Describe the pathogenesis, ailments, mentals, physicals, generals of Platina.
4. Describe Vertrum album under pathogenesis, mentals, gastric and clinical utility.
5. Compare and contrast sulphuric acid, nitric acid and phosphoric acid in detail.
6. List the mental indications of Aconite, staphysagria, Cimicifuga and sabadill.
7. Describe the drug profile of Picric acid in the background of mind physical general and clinical utility.
8. List the indications of Naja, Moschus, Oleum Animale and Heloderma.
9. Indicate organ affinity and explain the symptomotology of Sabal ser, Myrica, Cardus mar and Solidago.
10. Explain Crotalus hor under pathogenesis, general characters and clinical indications.

M.D. Homoeopathy Degree Examination (Part-I) – 29 Nov 2025

Time: 3 Hours | Max. Marks: 100

## Homoeopathic Philosophy and Organon of Medicine
(Revised Scheme 5)
Q.P. CODE: 8004

Your answers should be specific to the questions asked
Draw neat, labeled diagrams wherever necessary

Answer All The Questions | 10 X 10 = 100 Marks

1. Define Holism. Describe the Holistic concept in Homoeopathy
2. Explain the dynamic concept of life and describe its relation to health and disease
3. Discuss the role Hahnemann as a hygienist. Explain significance of friend of health
4. Describe the early life of Hahnemann. Explain the establishment of Homoeopathy in the field of medicine
5. Compare $5^{th}$ and $6^{th}$ editions of organon of medicine
6. Explain Dr. Hahnemann's classification of disease
7. Compare the mind symptoms of psora, sycosis, syphilis
8. Explain the evolution of psora theory
9. Define Logic. Differentiate the logic of Aristotle and Francis Bacon
10. Discuss the theory of psychosexual development as proposed by Freud

M.D. Homoeopathy Degree Examination (Part-I) - 29-Nov-2025

[Time: 3 Hours] | [Max. Marks: 100]

## Repertory
(Revised Scheme 5)
Q.P. CODE: 8005

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

Answer All The Questions | 10 X 10 = 100 Marks

1. Classify repertories on the basis of their overall appearance, internal formatting and group characteristics.
2. Define Repertorization and explain the various methods of Repertorization.
3. Enumerate the case taking of Intermittent and Alternating diseases and add a note on the follow up of such cases with the help of repertory.
4. Explain the difficulties faced when taking a geriatric case.
5. Explain the role of Kent's repertory in Chronic diseases.
6. Evaluate the philosophical background of Kent's repertory
7. Assess the concept of Grand Generalization and list the misplaced rubrics from BTPB
8. Explain the role of relationship of Remedies from BTPB.
9. Discuss the Boger's concept of Totality.
10. Explain the Ground plan of Boger's Characteristics and Repertory.

M.D. Homoeopathy Degree Examination (Part-I) - 29-Nov-2025

Time: 3 Hours | Max. Marks: 100

## PRACTICE OF MEDICINE
## (Revised Scheme 5)
## Q.P. CODE: 8007

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

Answer All The Questions | 10 X 10 = 100 Marks

1. Elaborate on the complications of AIDS and correlate them with miasms in Homoeopathy

2. A 25-year-old woman presents with complaints of excessive thirst, dry skin, dizziness and reduced urine output. On examination, she appears lethargic and has hypotension. Discuss the possible causes of her dehydration, the tests that would be conducted, and the management plan. Include the role of Homoeopathy in her treatment

3. Describe the clinical picture of Cystic Fibrosis. Discuss its common symptoms, diagnostic investigations and management

4. Discuss the evaluation and investigative procedures for occupational cancers. How are they detected and managed in clinical practice?

5. Explain Delayed Hypersensitivity with examples of diseases. Discuss its pathophysiology, clinical manifestations and management

6. Acute diarrheal diseases: Discuss their general management and the role of Homoeopathy in their treatment

7. Classify the different types of Valvular Heart Disease. Give the clinical and investigation findings of ventricular septal defect

8. Discuss the scope of Homoeopathy in the management of diabetic sensory neuropathy. Include the therapeutic approaches and remedies

9. Explain the risk factors and preventive measures of obesity. Discuss the role of Homoeopathy in managing obesity

10. Draw up an Evidence-Based Medicine (EBM) plan for the management of non-communicable chronic diseases using Homoeopathy

# Rajiv Gandhi University of Health Sciences, Karnataka

M.D. Homoeopathy Degree Examination (Part-II) - 27-Nov-2025

Time: 3 Hours | Max. Marks: 100

## HOMOEOPATHIC PHILOSOPHY AND ORGANON OF MEDICINE – PAPER - II
(Revised Scheme 5)
Q.P. CODE: 8013

Your answers should be specific to the questions asked
Draw neat, labeled diagrams wherever necessary

Answer All The Questions | 10 X 10 = 100 Marks

1. Explain the concept of susceptibility as per Dr J T Kent
2. Explain series in degrees as per Dr J T Kent
3. Explain the significance of unity of medicine according to Stuart close. Justify Homoeopathy as a unity of medicine
4. Elaborate on drug potential
5. Explain the role of vital force as expressed in functions
6. Explain the significance of primary and secondary symptoms of drugs in determining the dose
7. Explain the evolution of editions of organon as per Richard Hughes
8. Explain knowledge of health according to Richard Hughes
9. Explain the homoeopathic principle of cure by Garth Boericke
10. Explain the scope and limitations of homoeopathic system of medicine

M.D. Homoeopathy Degree Examination (Part-II) - 27-Nov-2025

Time: 3 Hours | Max. Marks: 100

## REPERTORY – PAPER-II
(Revised Scheme 5)
Q.P. CODE: 8015

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

Answer All The Questions | 10 X 10 = 100 Marks

1. Define pathological generals. Explain its utility in practice with examples.
2. Compare the philosophical background of Boenninghaussen's Therapeutic Pocket Book and philosophical background of Kent's repertory
3. List the defects of application of philosophy in the construction of Kent's repertory.
4. Explain logic, plan and construction of Final General Repertory.
5. What are puritan group of repertories. Explain merits of Knerr's repertory.
6. Discuss the scope and limitations of Lippe's repertory. Explain its application in practice.
7. Discuss the clinical utility and limitations of Pocket manual of Homoeopathic Materia Medica & Repertory by Wm. Boericke.
8. Describe the philosophy and construction of Clarke's- Clinical Repertory.
9. Explain various expert systems available in Hompath.
10. Explain the utility and limitation of Complete repertory by Roger Von Zandvoort in practice.

# Rajiv Gandhi University of Health Sciences, Karnataka

M.D. Homoeopathy Degree Examination (Part-II) - 27-Nov-2025

Time: 3 Hours | Max. Marks: 100

## PRACTICE OF MEDICINE – PAPER - II
(Revised Scheme 5)
Q.P. CODE: 8019

Your answers should be specific to the questions asked
Draw neat, labeled diagrams wherever necessary

Answer All The Questions | 10 X 10 = 100 Marks

1. State the classification, causes and clinical presentation in proliferative glomerulonephritis with indications of a) Apis b) Sarsaparilla

2. Discuss the causes, clinical features and diagnosis of acute renal failure with it dietary and homoeopathic management

3. Describe the causes, clinical picture and diagnosis of multiple sclerosis with its Miasmatic background

4. Discuss in detail the localization of functions and abnormalities of cerebral cortex. Add a note on Guillian Barre syndrome

5. Classify Thyroiditis. Explain in detail the clinical presentation and treatment in Hoshimoto's thyroiditis with indications of - a) Thyroidinum b) Iodum

6. Explain the procedure – a) ERCP b) Paracentesis

7. Discuss in detail about - a) Sepsis syndrome b) Diabetic Ketoacidosis

8. Write the latest research updates of cardiovascular risk factors in dyslipidaemia through PROCAM studies
