Rajiv Gandhi University of Health Sciences, Karnataka

III Year B.H.M.S Degree Examination – 03-Mar-2025

[Time: 3 Hours] [Max. Marks: 100]

SURGERY - PAPER I (RS3)

QP Code: 1430

Your answers should be specific to the questions asked.
Draw neat labeled diagrams wherever necessary.

LONG ESSAY 2 X 10 = 20 Marks

1. Define ulcer. Mention aetiology, pathophysiology, clinical features and management of Diabetic Ulcer.
2. Define appendicitis. Explain aetio-pathogenesis, clinical features and investigations in case of acute appendicitis.

SHORT ESSAY 10 X 5 = 50 Marks

3. Define and describe effects of malnutrition.
4. Explain degree of burns. Add a note on rule of nine.
5. Define shock and explain the causes and clinical features of hypovolemic shock.
6. Explain pathogenesis, clinical features and investigations of intestinal obstruction.
7. Narrate clinical features and investigations in case of benign prostatic hypertrophy.
8. List the causes of urethral stricture.
9. Write the differentiating points between cerebral concussion and compression.
10. How will you manage the cancer of liver?
11. Explain clinical features and management of varicose ulcer.
12. Mention types of benign tumours and write about lipoma.

SHORT ANSWERS 10 X 3 = 30 Marks

13. List three measures in preoperative care of the patient.
14. State the complications of blood transfusion.
15. Define abscess. Mention its types.
16. List three factors affecting wound healing.
17. Define metabolic in acidosis.
18. Describe various intravenous fluids.
19. Write three investigations tuberculosis.
20. State three clinical features of cellulitis.
21. List three clinical features of leprosy.
22. Define hypertrophic scar.

SURGERY INCLUDING ENT, OPHTHALMOLOGY, DENTISTRY AND ORTHOPEDICS – PAPER - I (RS-4)

Q.P. CODE: 1461

Your answers should be specific to the questions asked.
Draw neat, labeled diagrams wherever necessary.

LONG ESSAYS — 2 x 10 = 20 Marks

1. Define Tumour. Mention the types. State the difference between malignant and benign tumour. Add a note on management of Benign tumour.
2. Discuss the role of Arnica, Calendula, Hamamelis and Hypericum in Injuries.

SHORT ESSAYS — 10 x 5 = 50 Marks

3. Describe the etiology, pathology and clinical features of Hypernatremia.
4. Define and state causes and clinical features of secondary haemorrhage.
5. Discuss various stages of wound healing.
6. Describe the effects of burns on various systems of body.
7. Define shock. Explain the pathophysiology and clinical features of Haemorrhagic shock.
8. Describe the action of Calc carb and Camphora in Haemorrhage.
9. Explain the role of Conium and Phytolacca in tumour.
10. Describe the role of Silicea and Nat – mur in Trophic ulcer.
11. Describe the indications of Anacardium and Syphyllinum in Leprosy.
12. Explain the action of Aconite and Arnica in burns.

SHORT ANSWERS — 10 x 3 = 30 Marks

13. Mention three types of blood transfusion.
14. List three factors in delayed wound healing.
15. Mention types of Granulation tissue.
16. Define Cellulitis. State two clinical features in Cellulitis.
17. List three investigations in pre-operative patient.
18. Mention the action of Anthracinum in Carbuncle.
19. Mention one homoeopathic remedy for Cellulitis.
20. State the indications of Arnica in tumour.
21. Mention the action of Pyrogenum in Septic shock.
22. Mention the indications of Tuberculinum in Marasmus.

SURGERY - PAPER II (RS-3)
QP Code: 1431

Your answers should be specific to the questions asked
Draw neat labeled diagrams wherever necessary

LONG ESSAY — 2 X 10 = 20 Marks

1. Describe the aetiology, clinical features, investigations and management of osteomyelitis
2. Define errors of refraction and mention its types. Explain Myopia in detail

SHORT ESSAY — 10 X 5 = 50 Marks

3. Define acute mastoiditis. Write the clinical features and complications of acute mastoiditis
4. Write the clinical features and management of frontal sinusitis
5. Write the aetiology, clinical features and management of enlarged adenoids
6. Briefly explain the types of chronic suppurative otitis media
7. Define Epistaxis. Write the aetiology and management of epistaxis
8. Define tracheostomy. Mention its types and write the indications for tracheostomy
9. Explain carpal tunnel syndrome and its management
10. Explain the pathology and clinical features of diabetic retinopathy
11. Define Colle's fracture. Write the clinical features and its complications
12. Define Epulis. Describe the types of Epulis

SHORT ANSWERS — 10 X 3 = 30 Marks

13. Differentiate entropion and ectropion
14. Define tooth caries and write its management
15. Describe Ophthalmia neonatorum
16. Write the general management of vertigo
17. Write a short note on delayed union and mal-union
18. Brief the type of dislocation of shoulder joint
19. Describe impacted Cerumen briefly
20. Describe the types of deviated nasal septum
21. Write the features of quinsy
22. Define Dupuytren's contracture
