## PAEDIATRICS (Revised Scheme)

## QP Code: 1067

Your answers should be specific to the questions asked.
Draw neat labeled diagrams wherever necessary.

**LONG ESSAY** **2 X 10 = 20 Marks**

1. How do you differentiate physiological jaundice from pathological jaundice? Describe the complications & management of pathological unconjugated hyper bilirubinemia in a full term baby
2. Discuss etiology, clinical manifestations and management of acute Bacterial meningitis

**SHORT ESSAY** **10 X 5 = 50 Marks**

3. Management of persistent cough in an unimmunized child
4. Radiological grading of vesico ureteric reflex
5. Complications and treatment of typhoid fever
6. Stages of Tuberculosis Meningitis. Describe clinical manifestations in each stage
7. Causes management of Juvenile idiopathic arthritis
8. Crisis in sickle cell anemia
9. Breath holding spells in children
10. Describe the clinical features of kwashiorkor
11. Gross motor mile stones upto of age
12. classification and management of Tracheo Esophageal Fistula

FR. MULLER CENTRAL LIBRARY

**SHORT ANSWERS** **10 X 3 = 30 Marks**

13. Signs of CHF in infants
14. Management of persistent
15. Tripod sign in poliomyelitis
16. Baby friendly hospital initiative
17. Clinical assessment and classification of pallor
18. Digoxin toxicity
19. Uses of chloroquine in pediatric practice
20. JE (Japanese Encephalitis) Vaccine
21. Primary prevention of rheumatic fever
22. Clinical features of Niacin deficiency

## QP Code: 1068

Your answers should be specific to the questions asked.
Draw neat labeled diagrams wherever necessary.

**LONG ESSAY** **2 X 10 = 20 Marks**

1. Write Etiology, clinical & lab features & management of Endocarditis
2. Describe clinical features, diagnosis of Cerebral stroke in young & its management

FR. MULLER
CENTRAL LIBRARY

**SHORT ESSAY** **10 X 5 = 50 Marks**

3. Anaphylaxis
4. Diagnostic criteria of rheumatoid arthritis (RA)
5. Major & minor criteria of rheumatic fever
6. Sub acute intestinal obstruction
7. Diagnosis of exudative pleural effusion
8. Causes of massive spleenomegaly
9. Risk factors for coronary arterial disease (CAD)
10. Diagnostic features of Pyelonephritis
11. Management of status epilepticus
12. Impaired glucose tolerance

**SHORT ANSWERS** **10 X 3 = 30 Marks**

13. Three complications of obesity
14. Three causes of atrial fibrillation
15. Name anti-malarial drugs
16. Cardiac causes of clubbing
17. Common causes of hematuria
18. Advantages of newer insulins
19. Causes of hypercalacaemia
20. Diagnosis of chronic active hepatitis
21. Causes of pancytopenia
22. Drugs used in rheumatoid arthritis

## QP Code: 1074

Your answers should be specific to the questions asked.
Draw neat labeled diagrams wherever necessary.

### LONG ESSAY — 2 X 10 = 20 Marks

1. Describe the clinical features, diagnosis and management of malignant ovarian tumours
2. What are the causes of white discharge in a 30 years old woman? Describe the relevant investigations and treatment

FR. MULLER CENTRAL LIBRARY

### SHORT ESSAY — 10 X 5 = 50 Marks

1. Azoospermia – causes and management
2. Pathogenesis of pelvic inflammatory disease
3. Causes of secondary amenorrhoea
4. Clinical features and treatment of adenomyosis
5. Definition and non-hormonal treatment of dysfunctional uterine bleeding
6. Hysterosalpingography
7. Investigations in a case of postmenopausal bleeding
8. Natural methods of contraception
9. Female sterilization
10. Erosion of cervix

FR. MULLER CENTRAL LIBRARY

### SHORT ANSWERS — 10 X 3 = 30 Marks

1. Treatment of enterocele
2. Postoperative care and advice after repair of vesicovaginal fistula
3. Types and causes of dysmenorrhoea
4. Investigations for stress incontinence
5. Human chorionic gonadotrophins (hCG)
6. Aetiology of genital prolapse
7. Diagnosis of cervical fibroid
8. Causes of Hirsutism
9. Amputation of cervix
10. Side effects of injectable contraceptives

M.B.B.S. PHASE III (Part-II) Degree Examination - June / July 2011

Time: 3 Hours [Max. Marks: 90]

## SURGERY PAPER – II (Old Scheme)

## QP Code: 1018

Your answers should be specific to the questions asked.
Draw neat labeled diagrams wherever necessary.

**LONG ESSAY** **2 X 10 = 20 Marks**

1. Discuss aetiopathogensesis, clinical features, investigations and treatment of carcinoma penis
2. Discuss aetiopathogensesis, clinical features, investigations and treatment of chronic duodenal ulcer

**SHORT ESSAY** **10 X 5 = 50 Marks**

3. Thyroid storm
4. Anal fissure
5. Mucocele of appendix
6. Paralytic ileus
7. Empyema gall bladder
8. Ectopic testis
9. Peritonitis
10. Pheochromocytoma
11. Chemo embolisation
12. Wilm's tumor

**SHORT ANSWERS** **10 X 2 = 20 Marks**

13. Colonoscopy
14. Mastalgia
15. MEN syndrome
16. Endoscopic retrogradecholangio pancreatography
17. Dumping syndrome
18. Linitis palstica
19. Posterior urethral valve
20. Carcinoid syndrome
21. Pseudocyst of pancreas
22. Horse shoe kidney

Time: 3 Hrs. [Max. Marks: 90]

## OBSTETRICS & GYNAECOLOGY (Old Scheme)

## QP Code: 1019

Your answers should be specific to the questions asked.
Draw neat labeled diagrams wherever necessary.

**LONG ESSAY** **2 X 10 = 20 Marks**

1. What are the signs and symptoms of Molar pregnancy? How would you diagnose and manage a case of vesicular mole?
2. Discuss the diagnosis and management of Twin pregnancy. What are the complications of twin pregnancy?

**SHORT ESSAY** **10 X 5 = 50 Marks**

3. Give the causes of vaginal discharge. How will you diagnose and manage Gardenella vaginalis
4. What is Cervical-Intraepithelial Neoplasia? What is the treatment for CIN II?
5. What are the complications of 2nd Trimester termination of pregnancy? What is Manual vacuum aspiration?
6. What are the causes and Differential Diagnosis of uterine inversion? How will you manage puerperal uterine inversion?
7. What is grading of prolapse uterus? What is the principle of treatment of Nulliparous prolapse?
8. How would you diagnose ruptured ectopic pregnancy?
9. How would you diagnose and treat Incompetent cervical os?
10. What is ovarian endometrioma? What is the medical management of endometriosis?
11. What is HELLP syndrome? How would you manage HELLP syndrome at 32 weeks of pregnancy?
12. What are the causes of PPROM? What are the complications associated with it?

**SHORT ANSWERS** **10 X 2 = 20 Marks**

13. What are the Indications and proceedure of doing GTT?
14. Enumerate the types of DUB
15. What is Hormonal Replacement Therapy?
16. Give the Differential Diagnosis of post menopausal bleeding
17. How will you diagnose PCOD?
18. Current recommendation of routine Antenatal check up
19. B-Lynch sutures
20. What is cabergolin - what is it used for?
21. What is "Twin peak sign"?
22. What is the diet recommendation in normal pregnancy?
